

Don't Hand Me Down - Key of D

(Intro - long)

don't hand me down, don't hand me down
can't watch you spin all this shit around
hand me down, don't hand me down
you talk too loud and you bark too loud

Don't push me down, don't push me down
for all of the worries you have found

Settle with me, don't meddle with me
You've got good eyes that just don't see
Lay off woman with the third degree
One of these days I'll cut you free

don't push me down, don't push me down
wished your volume spoke without a sound

(Bridge #1)

(Bridge #2)

(Intro - long)

Dont hand me down, don't you hand me down
you talk too loud and you bark too proud

Don't push me down, don't push me down
for all of the worries you have found
